

navigation

Situated in the heart of the north, Minneapolis is very much a four-seasons city. But that doesn't slow down the bustling downtown scene during the workweek or on the weekends. Whether al fresco or in the heated comfort of our renowned skyway system, it's easy to find your way around.

- The skyway's 9.5 miles of continuously connected walkways can take you east to west from U.S. Bank Stadium to Target Field or north to south from Washington Square to the Minneapolis Convention Center and Hyatt Regency. It continues to expand, with a new connection just opened to RBC Gateway.
- Three major bikeable greenways feed into the heart of downtown. Nice Ride e-bikes arrived in July 2019. In 2021, Nice Ride MN added 70 new stations to the Minneapolis area and riders completed over 250,00 total rides.
- The Mississippi River provides an opportunity to explore the water along the East and West River Parkways as well as across the Stone Arch Bridge. Don't miss the breathtaking views at St. Anthony Falls!
- Weave your way through downtown and enjoy weekly favorites like the Nicollet Farmers + Makers Market.
